SHADES OF CORAL

STYLE
GUIDE

Leigh Hamlet
Manager of Eileen Fisher

Summer is definitely in the air and I am excited about everything being fresh and new again. It's the perfect time to swap out your drab, chunky pieces for some light and colorful options! Black and cream are great color picks for spring, they are versatile and stylish neutrals that mix beautifully with vibrant pops of color such as coral and mint green. Throw in some textured pieces and graphic prints for some interest and you are sure to be on trend for the season. Ready for any relaxed, casual adventure summer has to offer!
