SPOTLIGHT

Exhibition: Rolling Sculpture: Art Deco Cars from the 1930s and 40s

North Carolina Museum of Art

October 1 – January 15

www.ncartmuseum.org

The automobile, a rapidly evolving mechanical child of the 20th century, became the perfect metal canvas upon which to express the popular art deco style. Influenced by an international art movement, automakers embraced the sleek, new streamlined forms and aircraft-inspired materials to create memorable automobiles that still thrill all who see them. With bold, sensuous shapes; handcrafted details; and luxurious finishes, this exhibition showcases 14 automobiles and 3 motorcycles with stunning examples of car design...with artistic flair.

Eduardo Cardozo: The Other Side

Laca Projects

September 8 - November 5

www.lacaprojects.com

Latin American Contemporary Art Projects is proud to present The Other Side, a solo exhibition featuring the stunning works of Uruguayan artist Eduardo Cardozo. This is Cardozo's first show at LaCa Projects. The Other Side features two series within Cardozo's graceful approach to painting, in some cases abstract nature, scenes with compositions forged through complex layers and with an often-weathered appearance, and some purely abstract.
