

## JANA VALDEZ, INTERIOR DESIGNER, ALLIED ASID & ARMANDO VALDEZ, LICENSED CONTRACTOR

At *Haven Design & Construction*, we believe in making the remodel process as easy and as streamlined for our clients as possible. That's why, as a husband and wife team, we combine our luxury bath and kitchen design and construction expertise into one dynamic company that takes the project from start to finish. This beautiful kitchen remodel began when our clients dreamed of a classic white kitchen that was both beautiful and functional. The mosaic backsplash caught the eye of the client, and it was a match made in heaven when we found the stunning Mont Blanc quartzite for the countertops. We relocated the range top to an exterior wall and designed a custom range hood to serve as the focal point. The refrigerator was relocated so that the entry to the dining room could be flanked with lighted glass cabinets. An interlocking oval design graces the glass cabinet doors and the motif is repeated on the chandelier. The kitchen was recently awarded the "Best Kitchen Remodel for Region 5 South Central, in the 2017 NARI Regional Contractor of the Year Awards."
