Omar's Place designed by interior design firm Sella Concept; photography by Nicholas Worley

IN LIVING *CORAL*

A blithe and buoyant cue from nature beacons a cheerful cast.

Produced by Ashley Hotham Cox
Written by Christina Spratt Spencer

Artful playfulness envelopes this hopeful hue. It strikes a careful balance between bold and brilliant and subtle warmth. A rosy rendition of citrus orange, bright, with dollops of golden sunshine blended in, this note of coral embraces an uplifting and lively disposition. Demure yet complementary when paired with opposing blue tones like cobalt or aquamarine; effervescent with emerald and jade; and a spirited pop against neutrals warm and cool—from soft sand to deep caramels and pale dove to slate—this versatile tint becomes a joyful vision with most any color counterpart.
