# SPLENDID SPANISH QUARTZ

BY SUNNY SURANA

AS YOU PROBABLY KNOW, I AM ADAMANT ABOUT CARRYING ONLY THE MOST SUPERIOR QUARTZ SURFACES IN OUR SHOWROOM.

The benefits of quartz—durability, hardness, stain resistance, and much more—have pushed it to the top of homeowners' and designers' "must-have" lists. Quartz wears very well in many applications, even under intense daily use as a kitchen countertop in a family home.

In traveling to Spain, we have forged a strong relationship with its first manufacturer of quartz surfaces, Compac. CRS Marble & Granite is bringing Compac's Technological Quartz to the Raleigh marketplace. We carry fourteen colors from the line, which are

all inspired by lakes, forests, rocks, mountains, and other natural textures. In shades of cream, white, gold, black, and gray, Compac is taking the best of nature and combining it with the latest technology to create a high-grade quartz.

## WHY IS THIS PRODUCT SO EXCITING FOR HOMEOWNERS?

Compac's manufacturing process adds new properties to quartz, better adapting it to homeowners' everyday needs. With unbelievable impermeability and hardness, Technological Quartz has:

- minimal water absorption;
- maximum durability;
- impact resistance;
- stain resistance;
- and imperviousness to abrasion and scratches.

COURTESY OF COMPAC.

“THE BENEFITS OF QUARTZ HAVE PUSHED IT TO THE TOP OF HOMEOWNERS’ AND DESIGNERS’ ‘MUST-HAVE’ LISTS.”

#### WHAT DOES THIS MEAN FOR HOMEOWNERS?

It all adds up to what most of our clients want: a countertop that is easy to clean, low maintenance, and has a long life. By starting with a natural base of 95 percent quartz with added resin and pigment, Compac quartz is one of the hardest countertop materials available.

Don't forget, we still carry LG Viatera quartz through an exclusive distributor partnership with the manufacturer. This product line provides even more color choices for homeowners searching for the perfect match for a specific project. We have fifty color

choices of this particular product line in-house. No matter which quartz a homeowner chooses, trained design consultants in our design center provide the assistance and samples needed to make a confident choice for a beautiful result in the home.

We put our good name behind these quartz surface products. Whether our clients choose LG Viatera or Compac quartz, CRS continues to build on its high level of trust with homeowners that has been established over the last twenty-plus years. We want clients to lean on our trustworthy name while exploring all the benefits and beauty quartz can add to their homes. ♦
