CLEAR BLUE

DELFT BLUE IS AS
POISED AND POLISHED
AS PORCELAIN.

PRODUCED BY ASHLEY HOTHAM COX
WRITTEN BY CHRISTINA SPRATT SPENCER

There is a decidedly classic confidence in the timelessness of this crisp cobalt color—a felicity of familiarity rooted in traditions and abiding in apposition, always refreshingly relevant and perpetually posh, and reveling in the enduring ornamentality of an heirloom passed down. The exact deep, expansive blue of a clear and cloudless sky on a bright, sunny day, it is hopefully optimistic and collectedly calm in its encompassing vivacity. Dignified and distinguished, there is an orderly sincerity in this true-blue hue which is oftentimes congruously paired with a monochromatic range from inky navy to faintly frost with bluebell and hydrangea dancing in the in-between. Delft blue mingles well with many tones, but especially so with pops of peony, marigold, tangerine, and pear, and is always classic with cottony whites, a calling card of its earthenware namesake.
