MARIE *Cloud*

Designer Marie Cloud tends to find her biggest design inspirations when she travels. “Currently, I’m really drawn to the boldness of boutique hotels and often find inspiration from travel and dream vacations,” says the owner and principal designer of Indigo Pruitt Design Studio. “Give me moody tones and luxe texture paired with some unexpected elements for a sure win of my heart. I’m inspired by history and experiences, so I love adding a fresh modern flair with timeless elements. Cultural touches help define this storytelling aesthetic.” But Cloud’s inspiration always integrates her client’s personality, which she seamlessly blends with exterior influences. “My favorite part is adding personal touches and details that bring life into the design narrative,” she explains. “I’m inspired by spaces that embody the soul of its owner and the essence of what home means to them.”

1. Ricardo Black Velvet Accent Chair by Don Riccardo Massenburg / \$799 / tovfurniture.com
