# LAUREN *Burns*

Designer Lauren Burns is known for her masterful mix of styles and sophisticated layering. From commercial to residential designs, her projects can be seen nationwide. In her own home, Burns strives to create spaces that are bold yet soothing.

“For my own bedroom, I wanted to create a feminine and restful space that was sophisticated and comfortable,” explains Burns. “It’s important to me to have curated spaces, whether it’s in my own home or for clients. My bedroom includes original and refinished vintage pieces mixed with layers of soft gray, and several found objects that add interest and create a collected look.”
